

MINI (0-3,5 t)

PVL130S

- crimping force max. 15 kN
- one-handed operation for easy control of all tool functions
- electronic control with locking function and monitoring for complete closure of the jaws
- high-performance 12 V Li-Ion battery – with indication of charge status
- LED work lighting
- automatic return of dies when crimping is complete

Elpress minitool PVL130S, electro-mechanical crimping tool 0,5-50 mm², with intuitive PowerSense function.
Supplied with dies SA0760.

Item number: **5204-010300**
EAN: **7393487059825**

Delivery box: **Plastic case**
Working temperature, Min (°C): **-10**
Working temperature, Max (°C): **40**
Crimp geometries: **Tab, Oval, Roll, Trapezoid, W**
Battery: **10,8V, 2,0Ah Li-Ion**
Crimp time (s): **approx. 2, depending on the material**

AWG/MCM Cu: **24 - 1/0 AWG**
mm² Cu: **0,25-50**
