

MINIFORCE

ES2288

- ergonomic handles facilitate installation
- scissor movement for optimal access in confined spaces
- locking function which only releases once the crimp is complete
- hexagonal crimping with clearly marked crimping positions
- possibility of adjustment at calibration after long-term use

Tested and certified mechanical hand-held tool for crimping Cu-terminals, type KRT/KST 10-25 mm².

Item number: **5111-226400**

EAN: **7393487043695**

Ratchet function that does not trigger until completed crimp: **Yes**

Crimp geometries: **Hexagonal**

AWG/MCM Cu: **8 - 4 AWG**

mm² Cu: **10-25**

Crimp range Cu-terminals min (mm²): **10**

Crimp range Cu-terminals max (mm²): **25**
