ES2288

- ergonomic handles facilitate installation
- scissor movement for optimal access in confined spaces
- locking function which only releases once the crimp is complete
- hexagonal crimping with clearly marked crimping positions
- · possibility of adjustment at calibration after long-

Tested and certified mechanical hand-held tool for crimping Cu-terminals, type KRT/KST 10-25 mm².

Item number: 5111-226400 EAN: **7393487043695**

Ratchet function that does not trigger until

completed crimp: Yes

Crimp geometries: Hexagonal

AWG/MCM Cu: 8 - 4 AWG

mm² Cu: 10-25

Crimp range Cu-terminals min (mm²): 10 Crimp range Cu-terminals max (mm²): 25
