

MINIFORCE

# GRS1560LC- 4

The Elpress GRS1560LC-4 is a crimping tool for solar connectors such as the MC4™ and others like it.

It is the perfect tool for solar panel installers.

This tool has been tested and certified for crimping terminals with a diameter of 4 mm/0.157".

Cable area 1.5-2.5; 4.0; 6.0 mm<sup>2</sup>/AWG 16-14; 12; 10.

- Very powerful tool – thanks to its tempered, alloy steel
- Ergonomic handles that suit both left- and right-handed users
- Its unique mechanism reduce the handle force required compared with competing crimping tool
- Locking function which only releases once crimping is complete
